

Delegation Name: United States of America

Ambassador Name: Ege Yamakoğlu

Honorable Chairs, Most Distinguished Delegates, and Dear Participants,

The United States is wholly committed to ensuring peace, freedom, and democracy everywhere in our world. It also believes that diplomacy and only diplomacy may aid in the solutions of contemporary international issues. Therefore, it has participated actively in international politics, alliances, and the United Nations throughout its history.

The global pandemic has once again reminded the entire world of our interconnected nature. Events that take place tens of thousands of kilometers away may affect us. We, as the world, are dependent on each other. Neglecting this fact will only serve to hinder the solution of problems. As the largest international donor by far, United States firmly believes that prosperity for one is prosperity for all.

In this manner, the delegation of the United States believes that TIMUN 2020's theme of "Crisis and Global Governance" perfectly reflects the nature of our society and the consequent needs for global cooperation and global solution. Therefore, the delegation of the United States invites every delegate to produce diplomatic solutions that will further prosperity, freedom, and democracy in our world.

We wish every participant a fruitful and constructive debate.
