

Delegation Name: Malaysia

Ambassador Name: Gülin Keşmer

Honorable Chairs, Fellow Delegates, and Esteemed President,

The delegation of Malaysia feels more than privileged to attend the 27th annual session of TIMUN to debate and expectantly solve crucial and extensive matters the world currently faces. After unanimously becoming an official UN member in 1957, Malaysia has been active with its participation in the works of the UN and we are proud to announce that our recent growth in regulatory reform has been noticed by many international indicators, such as the Global Indicators of Regulatory Governance, Worldwide Governance Indicators, Doing Business (all formed by WBG). Today as the delegation of Malaysia we look forward to presenting our contribution to this conference.

Malaysia attaches great importance to handling global matters such as disobedience of fundamental human rights and freedoms, insufficient living conditions refugees and asylum seekers face, global heating and climate change, armed conflicts, pandemics, global economic shocks, and so forth. We believe that these problems cannot be solved by any one country therefore we recognize that global governance is needed and it is the key to sustainable global economics and fair global politics. By standing united and joint forces, countries have more capacity than they do individually in dealing with crises. We anticipate having a fruitful and productive debate and hopefully solving these problems with the fellow delegates representing member states. Thank you.

The floor is yielded.
