

Delegation Name: Niger

Ambassador Name: Nisan Köse

The Most Esteemed Presidency and Honorable Delegates,

As the ambassador of Niger, I would like to state that it is the highest honor for us to participate in TIMUN 2020. This conference has great importance on behalf of us since this year marks the 60th year of our UN membership. In the past 60 years, we have collaborated with member states and have always pursued peaceful international relations. Our enthusiasm for developing the world for the next generations in this time of crisis has increased more than ever as we became a non-permanent member of the Security Council this year. Being in the center of the continent makes Niger the crossroad of East, West, North and South Africa. The crucial socioeconomic place this geography holds, unfortunately, makes Niger a humanitarian crisis zone. The displacement caused by insecurity, the food shortage caused by the climate crisis and poverty spawns a complex circumstance that is an emergency. The COVID-19 pandemic has exacerbated the current situation. Therefore, TIMUN 2020's theme is a huge step forward for solving Niger's and every nation's problems in the house. As the delegation, we are prepared and willing for negotiations in every committee since we are aware that the unexpected health crisis has affected the governance of every country, including ours. Finally, we can assure you that every member of our delegation will work tirelessly to designate and implement the solutions that will be established through a debate of good quality that we are confident that TIMUN 2020 will have. Thank you, and we wish you a fruitful debate.
