

Delegation Name: The Islamic Republic of Iran

Ambassador Name: Doruk Yiğiter

Fellow Delegates, Most Distinguished Secretariat, Honorable Advisors, and Esteemed Guests,

The delegation of the Islamic Republic of Iran is content to be in this year's TIMUN Online conference on the theme of "Crisis and Global Governance". Life, as we have known for the past decades, ceases to exist alongside its "normals". As the world struggles against the Covid-19 pandemic, people have been facing new challenges on top of the problems of the past. This led the world governments into a state of chaos. Solutions of the past are no longer applicable whilst the problems still remain the same. We live in a world where international law is abused by some countries, economies of developing nations are manipulated by the so called democracies of the west and the sacred human life is worth nothing in the search of power. As Iran, we do not wish to live in a world like this. Iran has always been a country of change and development even before the revolution. However, when our strong people rose up against the untraditional and "haram" acts of the shah, Iran faced the biggest change of its existence. Ever since the revolution, Iran has been a part of world politics and economy even after the efforts of our enemies. Islamic Republic of Iran will never fall into the endless pit of crisis. Whenever our people struggle it is our duty to end the crisis by establishing a governing system that can function in every way possible.

On the other hand, we have observed that many other countries have failed to bring an end to the state of crisis in their respective countries and also in some cases internationally. The delegation of Iran will be more than happy to stop the injustice going on in the world and also help other fellow member states in their journey to prosperity. The ambassador of Iran is joyful to announce that Iranian delegates will be present in the United Nations Security Council, Economic and Social Council, every General Assembly committee except GA4, and both Special Conferences on the issues of Global Health Threats and Climate Crisis. The ambassador of Iran assures that all the Iranian delegates will be contributing to the debates and fight for the rights of our country. The delegation of Iran wishes a fruitful and also enjoyable TIMUN experience for all delegates, chairs, and executive team members.
